

572.13A Notice of commencement of work — general contractor — owner-builder.

1. A general contractor or owner-builder who has contracted or will contract with a subcontractor to provide labor or furnish material for the property shall post a notice of commencement of work to the mechanics' notice and lien registry internet website within ten days of commencement of work on the property. A notice of commencement of work is effective only as to any labor, service, equipment, or material furnished to the property subsequent to the posting of the notice of commencement of work. A notice of commencement of work shall include all of the following information:

- a. The name and address of the owner.
- b. The name, address, and telephone number of the general contractor or owner-builder.
- c. The address of the property or a description of the location of the property if the property cannot be reasonably identified by an address.
- d. The legal description of the property.
- e. The date work commenced.
- f. The tax parcel identification number.
- g. Any other information prescribed by the administrator pursuant to rule.

2. If a general contractor or owner-builder fails to post the required notice of commencement of work to the mechanics' notice and lien registry internet website pursuant to subsection 1, within ten days of commencement of the work on the property, a subcontractor may post the notice in conjunction with the filing of the required preliminary notice pursuant to section 572.13B. A notice of commencement of work must be posted to the mechanics' notice and lien registry internet website before preliminary notices pursuant to section 572.13B may be posted.

3. a. At the time a notice of commencement of work is posted on the mechanics' notice and lien registry internet website, the administrator shall assign a mechanics' notice and lien registry number and send a copy of the owner notice described in section 572.13. The owner notice shall contain the following language:

Persons or companies furnishing labor or materials for the improvement of real property may enforce a lien upon the improved property if they are not paid for their contributions, even if the parties have no direct contractual relationship with the owner. The mechanics' notice and lien registry provides a listing of all persons or companies furnishing labor or materials who have posted a lien or who may post a lien upon the improved property. If the person or company has posted its notice or lien to the mechanics' notice and lien registry, you may be required to pay the person or company even if you have paid the general contractor the full amount due. Therefore, check the mechanics' notice and lien registry internet website for information about the property including persons or companies furnishing labor or materials before paying your general contractor. In addition, when making payment to your general contractor, it is important to obtain lien waivers from your general contractor and from persons or companies registered as furnishing labor or materials to your property. The information in the mechanics' notice and lien registry is posted on the internet website of the mechanics' notice and lien registry.

b. Other relevant information may be included with the notice described in subsection 1 as prescribed by the administrator pursuant to rule.

c. The notice described in subsection 1 shall be sent to the owner's address. If the owner's address is different than the property address, a copy of the notice shall also be sent to the property address, addressed to the owner.

4. A general contractor who fails to provide notice pursuant to this section is not entitled to a lien and remedy provided by this chapter.

5. This section applies only to residential construction properties.
